

This file has been provided to assist your learning of God's Word and should be run as a slide show. The questions in this year's study guide are different than previous years' questions. They attempt to challenge the student to put together the information in the text instead of just knowing what the text says. There are some questions that come straight from the text as in past years. If you have any comments or questions please let me know.

I would also like to hear how you use the study guides in your preparation for Bible Bowl or in any other teaching application.

This file has been provided to assist your learning of God's Word and should be run as a slide show. The questions in this year's study guide are different than previous years' questions. They attempt to challenge the student to put together the information in the text instead of just knowing what the text says. There are some questions that come straight from the text as in past years. If you have any comments or questions please let me know.

I would also like to hear how you use the study guides in your preparation for Bible Bowl or in any other teaching application.

This file has been provided to assist your learning of God's Word and should be run as a slide show. The questions in this year's study guide are different than previous years' questions. They attempt to challenge the student to put together the information in the text instead of just knowing what the text says. There are some questions that come straight from the text as in past years. If you have any comments or questions please let me know.

I would also like to hear how you use the study guides in your preparation for Bible Bowl or in any other teaching application.
